

# Kundalini

*From Satanism Wiki*

The kundalini serpent lies dormant at the base of the spine. The goal of meditation is to open every **chakra** and make the kundalini serpent **ascend** from the base chakra and out through the crown chakra, through all seven main chakras. The nature of the kundalini serpent is highly sexual. When this energy is repressed and held back from abstaining from sex, it has been known to cause psychological issues on the self. Christians try to make some forms of sex unacceptable and keep people away from it to keep people **spiritually dead** and left with no power, totally and completely vulnerable to the forces of the universe. Before the kundalini serpent is able to ascend, it is necessary that all chakras are completely open and free of blockages, as well as strongly empowered. Both Kundalini and Hatha Yoga work to remove any blockages and obstructions in the spine thus making it easier to open and empower the chakras. Yoga naturally helps to create the necessary pathway for the serpent's ascension.
