

666 Meditation

From Satanism Wiki

The 666 Meditation is useful for empowering all of your chakras. It requires concentration to be effective. There are 2 versions of this meditation: The **normal** one and the **full** one. If you are new to meditation it would be a good idea to start with the **normal** 666, and do the **full** one once you are experienced with it. This meditation empowers all of your chakras and your soul, and helps your body to be ready for the **Kundalini** serpent.

Normal 666 Meditation

Focus on your chakras and vibrate, in order:

- **VAH** in your Base chakra
- **VUH** in your Solar chakra
- **VOH** in your Sixth chakra
