Introduction

Recently, terrorism attacks in Europe related to “Islamic State” and Islamic fundamentalism are getting more frequent, in this pdf I'll try explaining what's behind this.

Islamic State exposed

It's pretty obvious that Islamic State is directly ruled by Jews and Israel, through American CIA. Jews' tactic is to never expose themselves directly, they hide behind Gentiles to make them take all the blame for Jews actions. You can notice ISIS is ruled by Jews because terrorists claim to hate Jews and Israel, but they don't try invading or attacking it, even if Jews kill and treat Muslims in Israel as animals. That clearly means ISIS leaders are Jews and the whole Islamic State is ruled by Jews.

About recent terrorism attacks in Europe

Since Islamic State's terrorists started attacking important cities in Europe, the trend is to make some hash-tags go viral: **#PrayForParis** first, now **#PrayForBruxelles** etc. It's not new that Jews control all mass-media, press, and social networks, it isn't new also the fact they know well how to control masses for manipulating and make Gentile people think and believe in what Jews want them to believe. I will not go in detail about how Jews manipulate Gentiles in this pdf, but good resources about this are easy to find on Internet, see the *Protocols of the Elders of Zion* as example.

Why is this important?

Jews are losing their power over the world and Gentile Volk all over the world is waking up from their lies. Jews know that and start trying to save themselves by acting desperate like this. With their terrorism attacks over Europe, they want Gentiles fear they could die soon, they could be the next Islamic State objective for an attack. As we know, Jews' “god” takes power from People's fear and negativity. We also know that their so called god takes power when people prays him, because by praying, people gives it a little of energy to it. Now, Jews are trying using both this methods (fear and prayer) to gain some power for lasting as long as they can, they are desperate, they are at their last breaths.

Ending

That only means Satanists are making impact and Jews will be nothing more than a memory of the past soon. They are trying to make Gentiles think that we are losing, while it is the exact opposite. It's important that everyone keeps empowering and evolving spiritually, and also keep doing *Joy of Satan* rituals against Torah and Jews, that's how we will win this war.
