

Serpent Magic

From Satanism Wiki

Serpent magic which is primarily for Risens , and above advanced Awakened people can also preform it. In simple terms it is bonding with the **Serpent**, and using it's energy to do the magic for you.

Instructions for Awakened people

Serpent magic must be done completely in a trance. For a desire efficacy it is best to do this while in a deep trance. In the trance focus on the Serpent, and let it get as hot as possible. At that point visualize it sending it's energy throughout your soul; this will make your whole soul heat up with the golden fire of the Serpent. Then preform the magic you wanted to do by visualizing it strengthening the working.

Instructions for Risen people

For the Risen it is much simpler to do Serpent magic. Focus on the Serpent, and try to think with it. Let it's thoughts dominate your thoughts, and it's instincts dominate yours. Once the Serpent is dominating your thoughts preform the magic you wanted to do.

Don't try to use Serpent magic to run from an insecurity.
