

Satanfollower2355's Meditation Program

From Satanism Wiki

Description

This Program is to make Satanic Warriors, so follow it with rigor, if you feel it is going too slow for you feel free to speed it up. At the end of each week there are assignments to do; there is no set timeline for them to be completed but try to finish them as soon as possible and try to make creative solutions to these assignments. We need leaders, not followers.

IMPORTANT NOTE: While Yoga is not contained in here it is HIGHLY suggested that you start every meditation session with Kundalini Yoga and do Hatha Yoga to finish. Also, remember that this is a beginner meditation program designed to get you to the activated Serpent level and slightly past it. Some will progress faster through it than others and that is completely fine; just remember to have discipline and complete all the assignments.

EXTREMELY IMPORTANT: FOCUS REALLY HARD ON THE CHAKRAS WHILE MEDITATING AND HAVE THE INTENT TO EMPOWER YOUR SOUL FIRST AND FOREMOST WHILE MEDITATING.
